About the Authors	vii
-------------------------	-----

Introduction **xvi**

About This Book	xvii
Two Points of View	xvii
Why This Book and Why Now	xviii
Conventions Used in This Book	xviii

Chapter 1: Editing Basics **2**

Fundamental Editing Techniques	3
Evaluating an image before editing	3
Planning your edits based on the human visual system	5
Editing Terminology	10

Chapter 2: The Digital Workflow **18**

A Basic Workflow	19
Use the correct settings	19
Organize your images	19
Identify images to edit	21
Apply any RAW-based adjustments	22
Apply lens-based enhancements	23
Crop the image	23
Apply noise reduction	25
Do panorama stitching or HDR merging and tone mapping	25
Retouch dust or other imperfections	25
Use Viveza 2 to balance light and color	25
Stylize with Color Efex Pro or Silver Efex Pro	27
Make a final round of clean-up	27
For Photoshop only: Save a master version	27
For Photoshop only: Resize based on output	28
Sharpen based on output	29
For Photoshop only: Save your sharpened working file	29
Print or upload your masterpiece	29
Creating a Custom Workflow	31
Noise reduction	31
Resizing	32

Cropping.....	32
RAW presharpening versus sharpening.....	32
Output sharpening.....	33
Living in the land of 2 percent versus the real world	34
Your Personal Workflow.....	35

Chapter 3: The Nik Software Editing Environment **36**

Differences in Host Applications.....	37
Adobe Photoshop.....	37
Adobe Photoshop Elements.....	39
Adobe Photoshop Lightroom	42
Aperture	43
Standalone Nik Software plug-ins	44
Other Host Applications	45
Which Host Application to Use?.....	46
Standardized user interface.....	47
Left pane	47
Top toolbar.....	48
Right pane.....	48
Bottom toolbar.....	48
Image area.....	50
Batch Processing in Photoshop	50

Chapter 4: U Point **54**

U Point Technology Explained.....	55
How U Point Technology Works.....	58
Using Anchor Control Points	61
The Different Uses of U Point Technology.....	61
What Is Noise?	67

Chapter 5: Dfine 2.0 **36**

How Dfine 2.0 Works.....	70
Step 1: Measuring Noise.....	71
Step 2: Reducing Noise	72
Reducing noise globally and selectively with control points	74
Reducing noise globally and selectively with color ranges	77
Using the Advanced Noise Reduction tools.....	77

Using the Modes Popup Menu to Review the Noise	82
and Selection Masks	
When to Use Dfine 2.0 to Reduce Noise	85

Chapter 6: Viveza 2 **88**

The Viveza 2 Interface	90
Adding control points	90
Grouping and ungrouping	90
Global and selective indicators	91
Expand and Collapse buttons	92
Enhancement sliders	92
Color picker and Eyedropper tool	94
Control Point List	95
Levels and Curves control	96
Applying Viveza 2 to Your Photographs	97
Working with landscape images	98
Working with portrait images	103

Chapter 7: HDR Efex Pro 3.0 **110**

HDR Imaging Explained	111
The two stages of HDR image processing	112
How to Capture and Process the Image Series for Best Results ..	117
Reducing motion	117
Optimal camera settings	118
Processing a series of images	118
Working with HDR Efex Pro	120
Merging with HDR Efex Pro	120
Alignment and ghost-reduction settings	124
Tone mapping with HDR Efex Pro	128
HDR panoramas	136
Setting up to shoot an HDR panorama	137
Creating the panoramas	137
Create the HDR panorama	139

Chapter 8: Color Efex Pro 4 **140**

Working with the Filter List and Presets	141
Basic Controls	144

Taking Advantage of Recipes	149
The Powerful History Browser	151
Example Images and Enhancements	152
Example 1: A portrait photo.....	152
Example 2: A landscape photo	156
Example 3: An architectural photo	159

Chapter 9: **Silver Efex Pro 2** **162**

Creating Amazing Black-and-White Images	163
Working with Silver Efex Pro 2	164
Starting with presets.....	164
Brightness controls	165
Contrast controls.....	168
Structure controls	170
Selective Adjustments section.....	173
Color filters.....	176
Film types	178
Finishing Adjustments section.....	179
Loupe & Histogram section	181
History Browser	183
Image Workflows	184
Example 1: A portrait image.....	185
Example 2: A portrait image.....	187
Example 3: A landscape image.....	189

Chapter 10: **Sharpener Pro 3.0** **196**

The Importance of Sharpening Digital Images.....	197
Detail loss during capture	197
Detail loss during image processing.....	199
Detail loss during output.....	199
Removing the Guesswork from a Complicated Task	200
How Sharpener Pro 3.0 Works	203
Applying Sharpener Pro to Your Images.....	204
RAW Presharpening.....	204
Output-based sharpening.....	209
Creative sharpening	212
Important Controls in the Settings	217

Default Control Point Settings.....	217
Image Size sliders	219

Chapter 11: Portraits Start to Finish **220**

Example 1: Candace.....	221
What we did in Viveza 2.....	223
What we did in Color Efex Pro 4.....	227
What we did in Sharpener Pro 3.0	227
Example 2: Lori.....	232
What we did in Viveza 2.....	233
What we did in Color Efex Pro 4.....	235
What we did in Sharpener Pro 3.0	238

Chapter 12: Landscapes Start to Finish **244**

Example 1: Trees of Peterhof.....	245
What we did in Dfine 2.0.....	245
What we did in Silver Efex Pro 2.....	245
What we did in Sharpener Pro 3.0	251
Example 2: Cliff Jump.....	253
What we did in Dfine 2.0.....	253
What we did in Viveza 2.....	254
What we did in Color Efex Pro 4.....	255
Example 3: Black-and-White HDR.....	258
What we did in HDR Efex Pro	261
What we did in Silver Efex Pro 2.....	262

Appendix A: The Rise of Digital Photography and the History of Nik **270**

The Rise of Digital Photography	271
The History of Nik Software	272

Appendix B: Index **276**
